INDEX

1. UPDATE — Riyadh airport strike kills 12 as United States weighs entering the Yemen war — WELL-CORROBORATED The deadliest attack on Saudi territory in more than a decade killed 12 people and injured 309, prompting renewed Houthi threats and public consideration of direct U.S. military support.

2. UPDATE — Trump calls for replacing Zelenskyy after the U.S.–Russia diesel deal — CONFIRMED Washington’s energy realignment with Moscow has escalated into open pressure on Ukraine’s leadership and refinery campaign, deepening a rupture inside the anti-Russia coalition.

3. Ancient aqueduct that carried water to the Temple Mount uncovered in Jerusalem — CONFIRMED Archaeologists exposed a 300-meter section of the Hasmonean-era Lower Aqueduct, adding physical evidence about the system that supplied ancient Jerusalem and the Temple complex.

1. UPDATE — Riyadh airport strike kills 12 as United States weighs entering the Yemen war

CONFIDENCE: WELL-CORROBORATED

Verified facts: Saudi Arabia’s civil-aviation authority said a missile attack on King Khalid International Airport killed 12 people and injured 309, some critically. The dead included four Saudi citizens, two Bangladeshis and one citizen each from the United States, Egypt, Jordan, Syria, Palestine and Sudan.

The October 10 attack damaged Riyadh’s principal airport and prolonged its closure. The Houthis renewed their warning Sunday that airlines, workers and travelers should avoid Saudi airports, while exempting airports serving Mecca and Medina. President Donald Trump said the United States was considering joining Saudi operations against the Houthis. Reuters, Associated Press, Reuters on the renewed warning.

What changed: Earlier briefings documented six airport deaths during several attacks. The newest strike alone killed 12 and injured hundreds, making it the deadliest attack on Saudi territory in more than a decade and moving possible U.S. participation from intelligence support into public consideration of direct military action.

Prophetic relevance: The conflict now involves an Iran-aligned force, Saudi Arabia, Türkiye, Pakistan, Britain and potentially direct U.S. combat around Red Sea and Gulf trade routes. It is a significant multinational war development, but it remains directed at Yemen and Saudi Arabia rather than the Israel-centered invasion described in Ezekiel 38.

Scripture watch: Ezekiel 38:5–13; Daniel 11; Matthew 24:6–8.

2. UPDATE — Trump calls for replacing Zelenskyy after the U.S.–Russia diesel deal

CONFIDENCE: CONFIRMED

Verified facts: President Trump publicly said Ukraine should obtain a new president and accused Volodymyr Zelenskyy of failing to make peace. He also demanded that Ukraine stop striking Russian oil refineries, blaming those attacks for high diesel prices.

Zelenskyy responded that Russia bears responsibility for the war and offered a reciprocal energy truce: Ukraine would halt refinery strikes if Russia stopped attacking Ukrainian energy infrastructure. Ukrainian officials defended Zelenskyy’s democratic mandate. Associated Press, Reuters.

What changed: Saturday’s report covered the U.S. sanctions waiver and diesel agreement with Russia. The dispute has now escalated into a U.S. president calling for the replacement of Ukraine’s wartime leader and pressuring Kyiv to end attacks on Russia’s energy system.

Prophetic relevance: The public rupture shows a rapid shift in alliances surrounding Russia’s war and a major power exerting pressure over another nation’s leadership. It does not identify Russia as Gog, establish an Israel-related covenant or satisfy the specific Antichrist markers in Daniel and Revelation.

Scripture watch: Ezekiel 38:1–9; Daniel 11; Matthew 24:6–7.

3. Ancient aqueduct that carried water to the Temple Mount uncovered in Jerusalem

CONFIDENCE: CONFIRMED

Verified facts: The Israel Antiquities Authority announced the excavation of a 300-meter section of Jerusalem’s Lower Aqueduct south of Kibbutz Ramat Rachel. Construction is attributed to the Hasmonean period, roughly 2,000 years ago.

The channel formed part of a larger gravity-fed system that carried spring water from the Gush Etzion area and Solomon’s Pools toward Jerusalem and the Temple Mount. Evidence of repairs and alterations shows that later generations maintained the waterworks over many centuries. JNS/TPS-IL, Israel National News.

What changed: The newly exposed section is unusually long and provides additional archaeological evidence for the infrastructure serving ancient Jerusalem and the Temple precinct; it is not a newly built ritual facility.

Prophetic relevance: Archaeology connected to the Temple Mount is important to the historical setting of biblical worship. This discovery does not change access or worship policy, advance Third Temple construction or prove any prophetic timetable.

Scripture watch: 2 Chronicles 32:30; John 7:37–38; Revelation 11:1–2.

JEWISH CALENDAR — NEXT 7 DAYS

Sunday–Monday, October 11–12 — Rosh Chodesh Cheshvan: The two-day new-month observance began at sunset Saturday. Sunday is 30 Tishrei and Monday is 1 Cheshvan; the observance concludes at nightfall Monday. Rosh Chodesh worship is grounded in Numbers 10:10 and Numbers 28:11–15. Cheshvan contains no major biblical festival.

Friday evening–Saturday, October 16–17 — Shabbat Noach: Jerusalem candle lighting is approximately 5:26 PM Friday, following the local custom of lighting 40 minutes before sunset. Standard Havdalah is approximately 6:41 PM Saturday; later customs vary. The reading is Genesis 6:9–11:32, covering the Flood, God's covenant with Noah and Babel.

Jewish days begin at sunset. Candle lighting precedes sunset, while Havdalah and observance endings follow halachic nightfall and vary by convention. Hebcal Jerusalem calendar.

SIGNS & ANNIVERSARY WATCH

October 11: Mars passes through the Beehive Cluster before dawn, creating a close binocular pairing with the cluster's stars. This is a predictable viewing event with no demonstrated prophetic significance.

October 17: The Moon reaches apogee, its farthest orbital point from Earth during the current cycle. This is a routine monthly event.

No solar or lunar eclipse and no major meteor-shower peak occurs during the next seven days. The Orionids peak later, on October 21–22. NASA October skywatching, NASA GSFC Sky Events Calendar.

Modern State of Israel: Established May 14, 1948 — 78 years ago.

Jerusalem: Israel captured East Jerusalem and the Old City during the June 1967 Six-Day War — 59 years ago.

Neither reaches a new yearly anniversary this week. The establishment of the State of Israel and Israel's later capture of East Jerusalem are distinct historical events; Jerusalem is a city, not a nation.

ANTICHRIST WATCH — BIBLICAL TRAITS, NOT ACCUSATIONS

Donald Trump — new cross-border leadership pressure, not identification.

Trump's direct call for Ukraine to replace its president, following his sanctions reversal and agreement with Russia, is relevant to monitoring the exercise of exceptional political and diplomatic influence over war and national leadership.

This is a watchlist of documented traits and developments, not identification of Trump or any living person as the Antichrist. The episode does not involve a seven-year covenant with Israel, sanctuary desecration, global worship, blasphemous self-exaltation in a temple or the persecution system described in the relevant passages.

Key passages: Daniel 7; Daniel 9:27; Daniel 11; 2 Thessalonians 2; Revelation 13; 1 John 2.

What to Watch Next

1. Whether the United States commits combat aircraft, air-defense systems or personnel to Saudi operations against the Houthis.
2. Whether Riyadh's promised response expands the war and whether Houthi attacks continue against civilian airports or energy infrastructure.
3. Whether Washington restricts intelligence or other support for Ukraine, and whether Russia accepts Zelenskyy's reciprocal energy-truce proposal.
4. Whether the newly exposed Lower Aqueduct receives public access, preservation work or additional excavation toward Jerusalem.
5. Any material Temple Mount prayer, access, enforcement, Third Temple or red-heifer development.
